PROFESSIONAL SUMMARY

Dedicated and proactive web developer with a strong foundation in modern JavaScript and TypeScript frameworks. Driven by problem-solving and technical execution, bringing practical project experience in building responsive and interactive user interfaces, managing relational databases, and integrating AI, Blockchain and backend APIs. Eager to learn rapidly, collaborate effectively, and contribute technical skills to a professional team.

WORK EXPERIENCE

IT Intern **June 2026 – August 2026**
TESDA CAR Regional Office | Baguio City, Benguet

- Developed a web portal for the Unified TVET Program Registration and Accreditation System (UTPRAS) using Vue, Node.js, and PostgreSQL.
- Designed and implemented a Google Sheets-based tracking system to manage initial UTPRAS data and program registrations.

PROJECTS

TESDA UTPRAS Portal | Full Stack Developer **2026**

- Developed a custom web application to streamline UTPRAS operations and program accreditation workflows for the Cordillera Administrative Region (CAR) office.
- Designed a scalable system architecture primed for deployment across 1 regional and 6 provincial offices in the Cordillera Administrative Region.

VERILOCAL | Lead Developer **2026**

- Developed a blockchain-powered product verification web application for local artisan in Baguio City using React, Node.js, and MySQL.
- Built to bring greater transparency to product origins and assist in verifying handmade local items.

RECOM | Full Stack Developer **2026**

- Developed a web-based product discovery engine with AI integration for online shoppers using Vue, Node.js and Supabase.
- Designed to help online shoppers find relevant items quickly through intelligent, AI-driven recommendations tailored to individual preferences.

EDUCATION

Bachelor of Science in Information Technology | Major in Web Technology **2023 - 2026**
University of the Cordilleras
